BROWN EGG LAYERS

<p><u>Barred Plymouth Rocks</u> Barred Plymouth Rocks are one of American's oldest and most popular breeds. All of their plumage is black and white barred. They are known for their efficient production of large brown eggs and the hens are not discouraged by cold weather</p>		<p>\$2.99 ea #9907 Pullets</p>
<p><u>Plymouth Blue Rocks</u> These birds have a beautiful appearance and are excellent layers of medium-large size brown eggs. Cold hardy and can free range well. The Blue Plymouth Rock is a cross between a native Andalusian Male and a Plymouth Barred Rock Female.</p>		<p>\$3.99 ea #9947 Pullets</p>
<p><u>Black Australorps</u> Black Australorps are one of the most popular producers of large light brown eggs and they are known for persistency of lay even in hot weather. The greenish purple sheen of this solid black plumage bird presents a truly beautiful sight. They are very quiet and gentle</p>		<p>\$3.49 ea #9927 Pullets</p>
<p><u>Buff Orpington</u> Buff Orpingtons, which have rich golden plumage, are a popular brown egg dual-purpose variety. They have a quiet disposition, make excellent mothers and are one of the most broody of all standard breeds</p>		<p>\$3.99 #9939 Pullets</p>
<p><u>Amber Sexlink</u> The Amber Sexlink is a high egg production breed laying large brown eggs. They are great foragers, and cold hardy. Females have a white body with a few brown-reddish feathers.</p>		<p>\$3.99 ea #9932 Pullets</p>
<p><u>Rhode Island Reds</u> Rhode Island Reds are an old time, well-known American breed. They are an excellent dual-purpose bird that efficiently produces large brown eggs. From the time they are chicks until maturity they may have white on the wing tips, but when they are fully matured they should not have any white feathers</p>		<p>\$2.99 ea #9904 Pullets</p>
<p><u>Golden Laced Wyandottes</u> Golden Laced Wyandottes are known as a docile, good producer of brown eggs. They are hardy, active, medium weight, dual-purpose used for production of both meat and eggs. Their unusual, attractive plumage color pattern and docile nature are making this variety more popular each year</p>		<p>\$3.99 ea #9955 Pullets</p>
<p><u>Silver Laced Wyandottes</u> Heavy docile bird with a rose comb feathering, with a silver (laced) white feather edged in greenish black. They are very hardy and a productive layer breed. Lays large brown eggs.</p>		<p>\$3.99 ea #9964 Pullets</p>
<p><u>Welsummer</u> The Welsummer eggs will vary in shades of dark brown eggs and most of the eggs will have a dark speckled pigment on the egg shell. They are a large bird, with a friendly disposition and are active foragers</p>		<p>\$5.99 ea #9934 Pullets</p>

BROILERS

Cornish Rocks

“World’s Fastest Growing Chickens”. Cornish Rocks are a remarkable meat-producing bird. They are a fast growing broiler cross with broad-breast, big thighs, white plumage & yellow skin. When fed properly producers can expect a six pound broiler in six weeks or less.

DUCKS

White Pekin

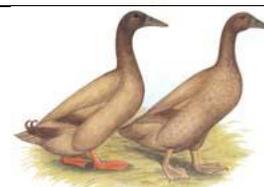

White Pekin Ducks are the most popular of all ducks. They have become very popular because of a combination of traits: hardiness, good fertility, excellent hatchability, calm temperament, large size, superior growth rate, excellent feed conversion, yellow skin, ornage feet & bills and white plumage

GUINEA KEETS

Guinea Keets – Assorted

Guineas are very active and easy to raise. After about 4 weeks of age, they require very little attention and will take care of themselves by husting for their food. Some of the benefits of having a farm flock of guineas are as follows: very fine “watch dogs”, keep snakes away from the farm and consume grasshoppers, ticks and other insects.
